We explore and we find GAS & OIL - the black gold

STUCK Exploration Inc. is an international operating exploration company that has specialized in prospecting for water, hot water springs, oil and natural gas. STUCK Exploration Inc. is a wholly owned subsidiary of STUCK Holding Ltd with its head office in Austria.

Technical state of the art technology together with 16 years of experience and the unrivalled offer in the oil and natural gas sector.

With STUCK Exploration`s team of professionals our oil and natural gas explorations can be implemented efficiently and economically. Compared to the conventional exploration methods, savings of 50% and more can be attained with STUCK Exploration`s efficient measuring methods and the **four pillar assessment model**.

In addition to our exploration services for your assignment, we will also offer you a further unrivalled quotation in the oil and natural gas sector - one that you have never received before! In areas where STUCK Exploration Inc. has already undertaken preliminary tests we work on a **success basis**. On a success basis means that should the area where the preliminary tests are carried out not warrant any oil and natural gas resources, then for you our exploration services are free of charge. The customer does not run any risk by co-operating with STUCK Exploration Inc.

Why does STUCK Exploration Inc. work on a success basis?

As a traditional Austrian company we are proud to offer quality at the highest level. TRUST is the cornerstone of our society and with this unrivalled success basis we offer our customers the possibility of starting a co-operation with STUCK Exploration Inc. and lay the foundation stone for future projects.

Energy is fundamental to survival and growth in our society.

The global demand is rising and is simultaneously limited.

Oil is one of the most valuable commodities of our economy and has become indispensable both in the private and industrial sector.

Around the world natural gas is a highly sought-after fossil fuel and is especially highly rated for heat and electricity production. With individual exploration, strong partnerships and state of the art technology on the road to success!

Our history

The firm STUCK Exploration Inc. originated from the Austrian company S&K Brunnenbohr Ltd, which was founded in 1999 as a family business. The company operates successfully in the whole of Europe.

Our values

The foundation of our entrepreneurial activity as a strong, reliable partner with expertise lies in our experience, vision and values. STUCK Exploration`s team members are open to new ideas and will turn your exploration project into a remarkable success story.

Our goals

The aim with our exploration services is to satisfy the steadily rising demand for oil and natural gas resources. It`s our assignment to guarantee an adequate energy supply.

Advantages of working with STUCK Exploration Inc.:

- Cost savings, time saving, using efficient procedures for oil and natural gas exploration
- Faster access to the production and extraction phase
- Minimizing the risks of dry boreholes
- Trust and confidence in us as a strong co-operations partner

Our customers include:

- Trade and Industry
- Oil and Natural gas companies
- Drilling Companies
- Power Plant operators
